2. Summary of Significant Accounting Policies and Significant Accounting Estimates, Judgements and Assumptions

The principal accounting policies applied in the preparation of these interim condensed consolidated financial statements are set out below. These policies have been constantly applied to all the periods presented, unless otherwise stated.

Basis of Preparation

The accompanying interim condensed consolidated financial statements of the Group have been prepared using the historical cost basis, except for investments at fair value through profit or loss (FVPL) and fair value through other comprehensive income (FVOCI), and derivatives which have been measured at fair value. The interim condensed consolidated financial statements are presented in Philippine Peso (₱). All amounts are rounded off to the nearest peso, unless otherwise indicated.

Statement of Compliance

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*.

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the

Group's annual audited consolidated financial statements as at and for the year ended December 31, 2021, which have been prepared in accordance with PFRS.

Difference in accounting periods

The Group consolidated the non-coterminous financial statements of its subsidiaries using their November 30 fiscal year end and the three months ended February 28 first quarter end financial statements except for QUADX Pte. Ltd and Mermaid Co. Ltd. with December 31 year end which are aligned with the Parent Company since it is impracticable for the said subsidiaries to prepare financial statements as of the same date as the reporting date of the Parent Company.

In 2021, LBC Mabuhay (Malaysia) Sdn. Bhd changed its accounting period end from December 31 to November 30 while in 2020, the Parent Company's subsidiaries, LBC Mabuhay (B) Sdn. Bhd and LBC Mabuhay Remittance Sdn. Bhd changed its accounting period end from June 30 and December 31, respectively, to November 30. These subsidiaries were previously consolidated using coterminous financial statements and are now being consolidated using the non-coterminous financial statements for the eleven months ended November 30.

Except as disclosed below, the Group did not reflect any transactions of entities with non-coterminous financial statements from March 1 to 31 as these are not considered to be significant.

Management exercised judgment in determining whether adjustments should be made in the interim condensed consolidated financial statements of the Group pertaining to the effects of significant transactions or events of its subsidiaries that occur between March 1, 2022 and 2021 and the date of the Parent Company's financial statements which is March 31, 2022 and 2021 and between December 1, 2021 and the comparative date of the Parent Company's financial position which is December 31, 2021.

The interim condensed consolidated financial statements were adjusted to reflect the LBCE's availment and settlement of bank loans in March 2022 amounting to ₱305.53 million and ₱23.29 million, respectively, adjustment to reflect the increase in fair value of equity investment at FVOCI by ₱23.41 million and advance payment for national tax amounting to ₱418.15 million.

The interim condensed consolidated financial statements in March 2021 were adjusted to reflect the LBCE's settlement of bank loans amounting to ₱35.32 million, changes in fair value of equity instrument at FVOCI amounting to ₱37.06 million, payment of income taxes amounting to ₱29.42 million and time deposit placement amounting to ₱50.00 million.

The consolidated financial statements as of December 31, 2021 were adjusted to effect LBCE's availment and settlement of bank loans in December 2021 amounting to ₱17.86 million and ₱27.72 million, respectively, adjustment to reflect equity share in net earnings of Terra Barbaza Aviation, Inc. (TBAI) amounting to ₱1.09 million and adjustment to reflect the decrease in fair value of investment at FVOCI by ₱9.75 million for the period December 1 to 31, 2021.

There were no other significant transactions that transpired between March 1, 2022 to March 31, 2022, December 1, 2021 to December 31, 2021 and March 1, 2021 to March 31, 2021.

Basis of Consolidation

The interim condensed consolidated financial statements include the accounts of the Parent Company and all of its subsidiaries where the Parent Company has control. The interim condensed consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. All significant intercompany balances and transactions,

including income, expenses and dividends, are eliminated in full. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee),
- exposure, or rights, to variable returns from its involvement with the investee, and
- the ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee
- rights arising from other contractual arrangements
- the Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the interim condensed consolidated statements of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary. Non-controlling interests (NCI) represent the portion of profit or loss and net assets in subsidiaries not owned by the Group and are presented separately in the interim condensed consolidated statement of comprehensive income, interim condensed consolidated statement of changes in equity and within equity in the interim condensed statement of financial position, separately from the Parent Company's equity. Any equity instruments issued by a subsidiary that are not owned by LBCH are non-controlling interests including preferred shares and options under share-based transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of LBCH and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the interim condensed consolidated financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- derecognizes the assets (including goodwill) and liabilities of the subsidiary
- derecognizes the carrying amount of any non-controlling interests
- derecognizes the cumulative translation differences recorded in equity
- recognizes the fair value of the consideration received
- recognizes the fair value of any investment retained
- recognizes any surplus or deficit in profit or loss
- reclassifies LBCH's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

All significant intercompany balances and transactions, including income, expenses and dividends, are eliminated in full. Profit and losses resulting from intercompany transactions that are recognized in assets are eliminated in full.

On January 1, 2021, LBC Mundial Corporation acquired 1,000 shares of common stock of LBC Business Solutions North America Corp. (LSN) for a total purchase price of US \$2,500 or ₱0.12 million. LSN is a non-vessel operating common carrier registered in the United States (Note 3).

There were no other acquisitions and disposal nor changes in the Parent Company's ownership interests in its subsidiaries in 2022 and 2021.

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2021, except for the adoption of new standards effective as of January 1, 2022. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Except otherwise stated, the adoption of the new accounting standards, amendments and interpretations which apply for the first time in 2022, do not have an impact on the interim condensed consolidated financial statements of the Group.

- Amendments to PFRS 3, *Reference to the Conceptual Framework*

The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, *Business Combinations* to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and apply prospectively.

- Amendments to PAS 16, *Plant and Equipment: Proceeds before Intended Use*

The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

- Amendments to PAS 37, *Onerous Contracts - Costs of Fulfilling a Contract*

The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

- *Annual Improvements to PFRSs 2018-2020 Cycle*

- Amendments to PFRS 1, *First-time Adoption of Philippines Financial Reporting Standards, Subsidiary as a first-time adopter*

The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent’s date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted.

- Amendments to PFRS 9, *Financial Instruments, Fees in the ‘10 per cent’ test for derecognition of financial liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

- Amendments to PAS 41, *Agriculture, Taxation in fair value measurements*

The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41.

An entity applies the amendment prospectively to fair value measurements on or after the beginning of the first annual reporting period beginning on or after January 1, 2022 with earlier adoption permitted.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and apply retrospectively, however, the Group is not required to restate prior periods. The amendments does not have significant impact on the Group's interim consolidated financial statements

Significant Accounting Judgments Estimates and Assumptions

The preparation of the interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. Uncertainty about these estimates and assumptions could result in outcomes that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

There were no significant changes in the significant accounting judgments, estimates, and assumptions used by the Group for the interim period ended March 31, 2022.

3. Business Combination and Goodwill

There were no acquisitions and disposal of subsidiaries for the three months ended March 31, 2022.

On January 1, 2021, LBC Mundial Corporation acquired 1,000 shares of common stock of LBC Business Solutions North America Corp. (LSN) for a total purchase price of US \$2,500 or ₱0.12 million. LSN is a non-vessel operating common carrier registered in the United States. The fair values of identifiable assets acquired and liabilities assumed as at the date of acquisition as shown below:

Percentage of ownership of LBC Mundial	100%
Assets	₱5,907,900
Liabilities	5,924,851
Net Assets	(16,951)
Add: Purchased goodwill	137,041
Purchase consideration	₱120,090

The goodwill amounting to ₱0.14 million represents the fair value of expected synergies, revenue growth and future developments that do not meet the recognition criteria for intangible assets.

There were no contingent considerations in the above acquisition.

The revenue and net income of the acquired entity from January 1 to December 31, 2021 included in the annual consolidated statement of comprehensive income amounted to ₱46.73 million and ₱3.53 million, respectively.

There is no movement in the carrying amount of goodwill from December 31, 2021.

Impairment testing of Goodwill

The Group performs its annual impairment test in December and when circumstances indicate that the carrying value may be impaired. The Group's impairment test for goodwill is based on value-in-use calculations. The key assumptions used to determine the recoverable amount for the different

significant cash generating units were disclosed in the annual consolidated financial statements for the year ended December 31, 2021.

The Group did not perform impairment test on goodwill for the three months ended March 31, 2022 since impairment testing is performed every year end. When reviewing for indicators of impairment, the Group considers various external and internal sources of information.

The Group did not recognize impairment losses on goodwill as of March 31, 2022.

4. Cash and Cash Equivalents

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents include short-term placements made for varying periods of up to three months depending on the immediate cash requirements of the Group and earn interest at the prevailing short-term placement rates.

Cash in banks and cash equivalents earn interest ranging from 0.06% to 1.25% per annum in 2022 and 0.13% to 2.62% in 2021. Interest income earned from cash and cash equivalents amounted to ₱0.21 million and ₱1.31 million for the three months ended March 31, 2022 and 2021, respectively.

Trade receivables arise from sale of services related to inbound and outbound courier services handling and consolidation services with normal credit terms of 30 to 90 days.

Advances to officers and employees consist mainly of noninterest-bearing advances which are subject to liquidation upon completion of the business transaction and personal advances subject to salary

deductions.

Others mainly consist of SSS benefit receivable to be reimbursed within a year and accrual of interest income which is expected to be collected upon maturity of the short-term placements.

The Group performed reassessment of the collectability of its receivables and as a result, recognized additional provision for impairment losses. These were recognized under operating expenses in the consolidated statements of comprehensive income.

The movements in allowance for impairment losses of trade receivables follow:

The proceeds of the issuance of convertible instrument will be used to fund the growth of the business of the Parent Company, including capital expenditures and working capital. Accordingly, on August 4, 2017, the Parent Company issued, in favor of CP Briks Pte. Ltd (CP Briks), a seven-year secured convertible instrument in the aggregate principal amount of US\$50.0 million (₱2,518.25 million) convertible at any time into 192,307,692 common shares of the Parent Company at the option of CP Briks initially at ₱13.00 per share conversion price, subject to adjustments and resetting of conversion price in accordance with the terms and conditions of the instrument as follows:

- effective on three years (3) from issuance date (the Reset Date) - if the 30-day Trading Day Weighted Average Price (TDWAP) of the Parent Company's common shares on the Principal Market prior to the Reset Date is not higher than the initial conversion price, the conversion price shall be adjusted on the Reset Date to the 30-day TDWAP prior to Reset Date;
- upon issuance of common shares for a consideration less than the conversion price in effect - the conversion price shall be reduced to the price of the new issuance;
- upon subdivision or combination (i.e., stock dividend, stock split, recapitalization or otherwise) - the conversion price in effect shall be proportionately reduced or increased; and
- other events or voluntary adjustment.

The convertible instrument (to the extent that the same has not been converted by CP Briks as the holder or by the Parent Company) is redeemable at the option of CP Briks, commencing on the 30th month from the issuance date at the redemption price equal to the principal amount of the bond plus an internal rate of 13% (decreasing to 12%, 11% and 10% on the 4th, 5th and 6th anniversary of the issuance date, respectively). The agreement also contains redemption in cash by the Parent Company at a price equal to the principal amount of the bond plus an internal rate of 13% (decreasing to 12%, 11% and 10% on the 4th, 5th and 6th anniversary of the issuance date, respectively) in case of a Change of Control as defined under the agreement.

The Parent Company also has full or partial right to convert the shares subject to various conditions including pre-approval of the PSE of the listing of the conversion shares and other conditions to

In the event of default, CP Briks may foreclose upon the pledge over LBCE shares as a result of which LBCE shares may be sold via auction to the highest bidder. The sale of LBCE shares in such public auction shall extinguish the outstanding obligation, whether or not the proceeds of the foreclosure sale are equal to the amount of the outstanding obligation. Under the terms of the pledge agreement, if LBCE shares are sold at a price higher than the amount of the outstanding obligation, any amount in excess of the outstanding obligation shall be paid to the Parent Company.

While CP Briks may participate in the auction of LBCE shares should there be a foreclosure, any such foreclosure of the pledge over LBCE shares and any resulting acquisition by CP Briks of equity interest in LBCE are always subject to the foreign ownership restrictions applicable to LBCE, which may not exceed 40% of the total issued and outstanding capital stock entitled to vote, and 40% of the total issued and outstanding capital stock whether or not entitled to vote, of LBCE.

The Group charges delivery fees and service fees for the fulfillment of these services based on agreed rates.

The Group charged penalties by its affiliate for the Group's failure to meet the maximum period of delivery as contained in the service level agreement. Total claims and losses recognized for the three months ended March 31, 2021 amounted to ₱0.23 million (nil in March 31, 2022), is shown as a reduction in 'Service fees'. Outstanding payable for these penalties amounted to ₱2.57 million as of March 31, 2022 and December 31, 2021.

The Group regularly makes advances to and from related parties to finance working capital requirements and as part of their cost reimbursements arrangement. These unsecured advances are non-interest bearing and payable on demand.

In prior years, the Group has outstanding advances of ₱295.00 million to LBC Development Bank, an entity under common control of LBCDC. In 2011, management assessed that these advances are not recoverable. Accordingly, the said asset was written-off from the books in 2011 (see Note 28).

On May 29, 2019, LBCH sold all its 1,860,214 common shares in QUADX Inc. to LBCE for ₱186,021,400 or ₱100 per share payable no later than two years from the execution of deed of absolute sale of share, subject to any extension as may be agreed in writing by the parties.

On July 1, 2019, LBCE sold all its QUADX shares to LBCDC for ₱186.02 million, payable no later than two years from the date of sale, subject to any extension as may be agreed in writing by the parties. On the same date, LBCE, LBCDC and QUADX Inc. entered into a Deed of Assignment of Receivables whereas LBCE agreed to assign, transfer and convey its receivables from QUADX as of March 31, 2019 amounting to ₱832.64 million to LBCDC which shall be paid in full, from time to time starting July 1, 2019 and no later than two years from the date of the execution of the Deed, subject to any extension as may be agreed in writing by LBCE and LBCDC. In July 2021, LBCE and LBCDC entered into amended agreements to extend the payment of consideration for the sale of QUADX shares and the Assignment of Receivables to a date no later than two years from the amendment.

Upon completion of the acquisition of the remaining entity, as disclosed in Note 16, LBCH expects settlement by LBCDC of all of its obligations to LBCH, except for the assigned receivables from QUADX Inc. which will be settled based on abovementioned agreed terms.

- b. Starting 2007, LBCDC (Licensor), the Ultimate Parent Company, granted to the Group (Licensee) the full and exclusive right to use the LBC Marks within the Philippines in consideration for a continuing royalty rate of two point five percent (2.5%) of the Company's Gross Revenues which is defined as any and all revenue from all sales of products and services, including all other income of every kind and nature directly and/or indirectly arising from, related to and/or connected with Licensee's business operations (including, without limitation, any proceeds from business interruption insurance, if any), whether for cash or credit, wherever made, earned, realized or accrued, excluding any sales discounts and/or rebates, value added tax. Such licensing agreement was amended on August 4, 2017 and was subsequently discontinued effective September 4, 2017 in recognition of the Group's own contribution to the value and goodwill of the trademark.
- c. As discussed in Note 14, the Group entered into a loan agreement with BDO which is secured with real estate mortgage on various real estate properties owned by the Group's affiliate. In consideration of the affiliate's accommodation to the Group's request to use these properties as loan collateral, the Group agreed to pay the affiliate, every April 1 of the year starting April 1, 2016, a guarantee fee of 1% of the face value of loan and until said properties are released by the bank as loan collateral. The guarantee fee is reported as part of interest expense in the interim consolidated statements of comprehensive income amounting to ₱1.79 million for the three months ended March 31, 2021 and nil in 2022, respectively.

On April 15, 2021, the Board of Directors of LBCH approved to guarantee the loan and allowed to hold out its time deposit. Such guarantee shall substitute the existing real estate mortgage on the affiliate's real estate properties as security.

- d. In the normal course of business, LBCE acquires services from OFII which include sea freight and brokerage mainly for the cargoes coming from international origins. These expenses are billed to the origins at cost.
- e. In 2019, LBCE subscribed 20,000,000 Preferred A shares and 29,436,968 Preferred B Shares of Terra Barbaza Aviation, Inc. (TBAI) amounting to ₱78.73 million. 22. Retirement Benefits

The components of liability recognized in the interim consolidated statements of financial position for the existing retirement plan follow:

	March 31, 2022 (Unaudited)	December 31, 2021 (Audited)
Present value of defined benefit obligation	₱1,193,385,481	₱1,166,702,128
Fair value of plan assets	(376,146,481)	(362,959,481)
	₱817,239,000	₱803,742,647

The Group has no existing transaction either directly or indirectly with its employees' retirement benefit fund.

The pension cost for the interim periods and the present value of the defined benefit obligation as at March 31, 2022 and 2021 were calculated by prorating the 2021 projected retirement expense and by extrapolating the latest actuarial valuation report for the year ended December 31, 2021, respectively.

23. Financial Risk Management Objectives and Policies

The Group has various financial assets such as cash and cash equivalents, restricted cash, trade and other receivables (excluding advances to officers and employees), due from related parties, financial assets at FVPL, financial assets at FVOCI, short-term investments under other current assets, loan receivable and notes receivable.

The Group's financial liabilities comprise of accounts and other payables (excluding statutory liabilities, accrued taxes and contract liabilities), due to related parties, notes payable, transmissions liability, lease liabilities, dividends payable, bonds payable, derivative liability and other noncurrent liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The main risks arising from the Group's financial instruments are price risk, interest rate risk, liquidity risk, foreign currency risk and credit risk. The BOD reviews and approves policies for managing each of these risks which are summarized below.

Price risk

The Group closely monitors the prices of its equity securities as well as macroeconomic and entity-specific factors which could directly or indirectly affect the prices of these instruments. In case of an

expected decline in its portfolio of equity securities, the Group readily disposes or trades the securities for replacement with more viable and less risky investments.

Such investment securities are subject to price risk due to changes in market values of instruments arising either from factors specific to individual instruments or their issuers, or factors affecting all instruments traded in the market.

The following table shows the effect on comprehensive income should the change in the close share price of quoted equity securities accounted for as FVOCI occur as at March 31, 2022 and 2021 with all other variables held constant.

	Effect on comprehensive income	
	March 31, 2022 (Unaudited)	March 31, 2021 (Unaudited)
Change in share price		
Increase by 5%	10,533,244	₱11,703,604
Decrease by 5%	(10,533,244)	(11,703,604)
Change in NAV		
Increase by 5%	106,744	₱753,078
Decrease by 5%	(106,744)	(753,078)

The Group is also exposed to equity price risk in the fair value of the derivative liability due to the embedded equity conversion feature. Furthermore, at a given point in time in the future until maturity date, the derivative liability has a redemption option offering a minimum return in case the value of the conversion feature is low. The impact of the changes in share price in the valuation is minimal.

Interest rate risk and credit spread sensitivity analysis

Except for the credit spread used in the valuation of the convertible redeemable bond, the Group is not significantly exposed to interest rate risk as the Group's interest rate on its cash and cash equivalents and notes payable are fixed and none of the Group's financial assets and liabilities carried at fair value are sensitive to interest rate fluctuations. Further, the impact of fluctuation on interest rates on the Group's finance leases will not significantly impact the results of operations.

The value of the Group's convertible redeemable bond is driven primarily by two risk factors: underlying stock prices and interest rates. Interest rates are driven by using risk-free rate, which is a market observable input, and credit spread, which is not based on observable market data. The following table demonstrates the sensitivity to a reasonably possible change in credit spread, with all other variables held constant, on the fair value of the Group's embedded conversion option of the convertible redeemable bond.

	Effect in fair value as of	
	March 31, 2022 (Unaudited)	December 31, 2021 (Audited)
Credit spread		
+1%	₱30,865,102	₱36,737,754
-1%	(31,831,286)	(35,973,849)

Liquidity risk

Liquidity risk is the risk from inability to meet obligations when they become due, because of failure to liquidate assets or obtain adequate funding. The Group ensures that sufficient liquid assets are available to meet short-term funding and regulatory capital requirements.

The Group has a policy of regularly monitoring its cash position to ensure that maturing liabilities will be adequately met.

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Management believes that cash generated from operations is sufficient to meet daily working capital requirements.

Surplus cash is invested into a range of short-dated money time deposits, which seek to ensure the security and liquidity of investment while optimizing yield.

The Group expects to generate cash flows from its operating activities mainly on sale of services. The Group also has sufficient cash and adequate amount of credit facilities with banks to meet any unexpected obligations.

Foreign currency risk

Foreign currency risk is the risk that the future cash flows of financial assets and financial liabilities will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates to the Group's operating activities when revenue or expenses are denominated in a different currency from the Parent Company and its subsidiaries' functional currencies.

The Group operates internationally through its various international affiliates by fulfilling the money remittance and cargo delivery services of these related parties. This exposes the Group to foreign exchange risk primarily with respect to Euro (EUR), Hongkong Dollar (HKD), Australian dollar (AUD), US Dollar (USD) and Japanese Yen (JPY). Foreign exchange risk arises from future commercial transactions, foreign currency denominated assets and liabilities and net investments in foreign operations.

The Group enters into short-term foreign currency forwards, if needed, to manage its foreign currency risk from foreign currency denominated transactions.

Information on the Group's foreign currency-denominated monetary assets and liability recorded under cash and cash equivalents, due from related parties and bonds payable in the interim condensed consolidated statements of financial position and their Philippine Peso equivalents follow:

The translation exchange rates used were ₱57.51 to EUR 1, ₱6.51 to HKD 1, ₱50.77 to USD 1, ₱0.44 to JPY 1 in 2021.

The following table demonstrates the sensitivity to a reasonably possible change in foreign exchange rates, with all variables held constant, of the Group's income before tax (due to changes in the fair value of monetary assets and liabilities - net position) as at March 31, 2022 and December 31, 2021.

₱2	₱1,866,338	₱15,551,288
(2)	(1,866,338)	(15,551,288)

There is no impact on the Group's equity other than those already affecting profit or loss and other comprehensive income. The movement in sensitivity analysis is derived from current observations on fluctuations in foreign currency exchange rates.

The Group recognized ₱5.11 million loss and ₱14.67 million foreign exchange gains - net, for the three months ended March 31, 2022 and 2021, respectively, arising from settled transactions and translation of the Group's cash and cash equivalents, equity investments at FVPL, due from related parties, trade payables and bond payable (see Note 19).

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Credit risk is monitored and actively managed by way of strict requirements relating to the creditworthiness of the counterparty at the point at which the transactions are concluded and also throughout the entire life of the transactions, and also by way of defining risk limits. The maximum credit risk exposure of the Group's financial assets is equal to the carrying amounts in the consolidated statements of financial position.

There are no collaterals held as security or other credit enhancements attached to the Group's financial assets.

The aging analyses of Group's receivables as of March 31, 2022 and as of December 31, 2021 follow:

	Current	March 31, 2022 (Unaudited)			Total

Capital Management

The Group's objectives in managing capital are to safeguard the Group's ability to continue as a going concern so that it can continue to provide shareholder returns and to maintain an optimal capital structure to reduce the cost of capital and thus, increase the value of shareholder investment.

In order to maintain a healthy capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debts. Management has assessed that the Group is self-sufficient based on historical and current operating results.

The capital that the Group manages is equal to the total equity as shown in the interim condensed consolidated statements of financial position as at March 31, 2022 and December 31, 2021 amounting to ₱2,173.39 million and ₱2,071.49 million, respectively.

24. Fair Values

The methods and assumptions used by the Group in estimating the fair value of the financial instruments are as follows:

The carrying amounts of cash and cash equivalents, trade and other receivables (excluding advances to officer and employees), due from/to related parties, short-term cash investments, restricted cash in bank, notes receivable, loans receivable, accounts and other payables (excluding statutory payables), dividends payable, transmissions liability, and the current portion of notes payable and lease

liabilities approximate their fair value because these financial instruments are relatively short-term in nature.

The fair value of equity financial assets at FVOCI is the current published closing price while the financial assets at FVPL is based on the net asset value per unit as of reporting date as provided by the fund manager.

The estimated fair value of the derivative liability as at March 31, 2022 and December 31, 2021 is based on an indirect method of valuing multiple embedded derivatives. This valuation technique uses binomial pyramid model using stock prices and stock price volatility. This valuation method compares the fair value of the option-free instrument against the fair value of the hybrid convertible instrument. The difference of the fair values is assigned as the value of the embedded derivatives. The significant unobservable input in the fair value is the stock price volatility of 24.82% and 24.65% in 2022 and 2021, respectively. In 2022, a 5% increase (5% decrease) in the stock volatility has an effect to the total comprehensive income by ₱41.50 million increase (₱41.73 million decrease). In 2021, a 5% increase (5% decrease) in the stock volatility has an effect to the total comprehensive income by ₱40.52 million increase (₱45.29 million decrease).

As of March 31, 2022, the plain bond is determined by discounting the cash flow, which is simply the principal at maturity, using a discount rate of 13.02%. The discount rate is composed of the matched to maturity risk free rate and the option adjusted spread (OAS) of 12%.

The fair value of the long-term portion of lease liabilities as at March 31, 2022 and December 31, 2021 is based on the discounted value of future cash flow using applicable interest rates ranging from 1.33% to 4.68% and from 2.68% to 4.20%, respectively.

The estimated fair value of long-term portion of notes payable as at March 31, 2022 and December 31, 2021 is based on the discounted value of future cash flow using applicable rates ranging from 1.31% to 5.87% and 0.99% to 4.82% respectively.

The estimated fair value of other noncurrent liabilities as at March 31, 2022 and December 31, 2021 is based on the discounted value of future cash flow using applicable rate of 1.36% to 2.84% and 2.68% to 4.20%, respectively.

The discounting used Level 3 inputs such as projected cash flows, discount rates and other market data except for the fair values of financial assets at FVOCI and FVPL which are classified as Level 1 and Level 2, respectively.

The quantitative disclosures on fair value measurement hierarchy for assets and liabilities as at March 31, 2022 and December 31, 2021 follow:

25. Segment Reporting

Management has determined the operating segments based on the information reviewed by the executive committee for purposes of allocating resources and assessing performance.

The Group's two main operating segments comprise of logistics and money transfer services. The executive committee considers the business from product perspective.

The Group's logistics products are geared toward both retail and corporate clients. The main services offered under the Group's logistics business are domestic and international courier and freight

forwarding services (by way of air, sea and ground transport).

Money transfer services include international presence through its branches which comprises international inbound remittance services.

The Group only reports revenue line item for this segmentation. Assets and liabilities and cost and expenses are shared together by these two segments and, as such, cannot be reliably separated.

The Group has no significant customer which contributes 10% or more to the revenue of the Group.

Set below is the disaggregation of the Group's revenue from contracts with customers:

26. Basic/Diluted Earnings (Loss) Per Share

The following table presents information necessary to calculate earnings per share (EPS) on net income attributable to owners of the Parent Company:

Basic Earnings per Share:

28. Other Matters

Closure of LBC Development Bank, Inc.

On September 9, 2011, the BSP, through Monetary Board Resolution No. 1354, resolved to close and place LBC Development Bank Inc.’s (the “Bank”) assets and affairs under receivership and appointed Philippine Deposit Insurance Company (PDIC) as the Bank’s official receiver and liquidator.

On December 8, 2011, the Bank, thru PDIC, demanded LBC Holdings USA Corporation (LBC US) to pay its alleged outstanding obligations amounting to approximately ₱1.00 billion, a claim that LBC US has denied for being baseless and unfounded.

In prior years, the Group has outstanding advances of ₱295.00 million to the Bank, an entity under common control of LBCDC. In 2011, upon the Bank’s closure and receivership, management assessed that these advances are not recoverable. Accordingly, the receivables amounting to ₱295.00 million were written-off.

On March 17 and 29, 2014, PDIC’s external counsel sent demand/collection letters to LBC Express, Inc. (LBCE), for collection of the alleged amounts totaling ₱1.79 billion. It also sent demand/collection letter to LBC Systems, Inc. [Formerly LBC Mundial Inc.] [Formerly LBC Mabuhay USA Corporation], demanding the payment of amounts aggregating to ₱911.59 million on March 24 and 29, 2014, July 29, 2014, June 17, 2015 and June 26, 2015.

On November 2, 2015, the Bank, represented by the PDIC, filed a case against LBCE and LBCDC, together with other respondents, before the Makati City Regional Trial Court (RTC) for a total collection of ₱1.82 billion representing collection of unpaid service fees due from June 2006 to August 2011 and service charges on remittance transactions from January 2010 to September 2011. PDIC justified the increase in the amount from the demand letters that were sent on March 17 and 29, 2014 due to their discovery that the supposed payments of LBCE were allegedly unsupported by actual cash inflow to the Bank.

On December 28, 2015, summons and writ of preliminary attachment were served on the former Corporate Secretary of LBCE. The writ of preliminary attachment resulted to the (a) attachment of

the 1,205,974,632 shares of LBC Express Holdings, Inc. owned by LBCDC and (b) attachment of various bank accounts of LBCE totaling ₱6.90 million. The attachment of the shares in the record of the stock transfer agent had the effect of preventing the registration or recording of any transfers of shares in the records, until the writ of attachment is discharged.

On January 21, 2016, LBCE and LBCDC filed its Urgent Motion to Approve the Counterbond and Discharge the Writ of Attachment which was resolved in favor of LBCE and LBCDC.

On February 17, 2016, the RTC issued the order to lift and set aside the writ of preliminary attachment. The order to lift and set aside the preliminary attachment directed the sheriff of the RTC to deliver to LBCE and LBCDC all properties previously garnished pursuant to the writ. The counterbond delivered by LBCE and LBCDC stands as security for all properties previously attached and to satisfy any final judgment in the case.

On April 10, 2017, some of the individual defendants filed their respective Answers while LBCE and LBCDC filed their Answer on April 11, 2017.

From August 10, 2017 to January 19, 2018, LBCE, LBCDC, the other individual defendants and PDIC were referred to mediation and Judicial Dispute Resolution (JDR) but were unable to reach a compromise agreement. The RTC ordered the mediation and JDR terminated and the case was raffled to a new judge who scheduled the case for pre-trial proceedings.

On or about September 3, 2018, PDIC filed a motion for issuance of alias summons to five individual defendants, who were former officers and directors of the Bank. For reasons not explained by PDIC, it had failed to cause the service of summons upon five other individual defendants and hence, the RTC had not acquired jurisdiction over them. Since PDIC was still trying to serve summons on the five individual defendants and thus, for orderly proceedings, LBCE and other defendants filed motions to defer pre-trial until the RTC had acquired jurisdiction over the remaining defendants.

On January 18, 2019, PDIC filed its Pre-Trial Brief. LBCE and other defendants, on the other hand, filed its own Pre-Trial Brief without prejudice to their pending Motions to defer Pre-Trial.

On May 2, 2019, at the pre-trial hearing, the judge released his Order, whereby, among others, he granted the motion to defer pre-trial proceedings in order to have an orderly and organized pre-trial and deferred pre-trial hearing until the other defendants have received summons and filed their answers. In the meantime, the parties have proceeded to pre-mark their respective documentary exhibits in preparation for eventual pre-trial.

Later on, four of the five individual defendants received summons and then filed motions to dismiss the case, all of which were denied by the RTC. All four individual defendants filed for motions for reconsideration. The motions for reconsideration filed by the three individual defendants were eventually denied by the RTC. Thereafter, the three individual defendants filed their Answers to the Complaint with the RTC.

Meanwhile, on January 16, 2021, summons, together with a copy of the Complaint were served on LBC Properties, Inc., another defendant in this case. On February 11, 2021, LBC Properties, Inc. filed its Answer to the Complaint.

Later on, the RTC denied the motion for reconsideration of the last remaining individual defendant. Thus, on May 24, 2021, Ma. Eliza G. Berenguer filed her Answer with Compulsory Counterclaims.

On November 8, 2021, PDIC, LBCE, LBCDC and the other defendants completed the pre-marking of their respective documentary exhibits. The parties are now waiting for notice from the RTC for the continuation of the pre-trial proper. The court has scheduled the continuation of the pre-trial proper on May 26, 2022 and June 23, 2022.

In relation to the above case, in the opinion of management and in concurrence with its legal counsel, any liability of LBCE is not probable and estimable at this point.

National taxes

LBCE and its certain subsidiaries are currently involved in assessments for national taxes and the outcome is not currently determinable.

The estimate of the probable costs for the resolution of this assessment has been developed in consultation with the Group's legal counsel and based upon an analysis of potential results. The inherent uncertainty over the outcome of this matter is brought about by the differences in the interpretation and application of laws and rulings. Management believes that the ultimate liability, if any, with respect to this assessment, will not materially affect the financial position and performance of the Group.

Without prejudice to the results of the assessment, the Group paid tax advance to the taxation authority amounting to ₱2.03 billion, ₱1.50 billion of which was paid as of December 31, 2021 and the remaining amount was paid in January to March 2022. Management assessed that these tax advance payments can be refunded or used to settle specific tax liabilities, if there's any, or be used as tax credit for tax liabilities in the succeeding years, and as such, recognized prepaid taxes under "Prepayments and other current assets" (see Note 7).

The Group does not provide further information required under Philippine Accounting Standards (PAS) 37, *Provisions, Contingent Liabilities and Contingent Assets*, on the ground that it may prejudice the outcome of the assessments.

29. Impact of COVID-19 Pandemic and Subsequent Events

Impact of the recent Coronavirus situation

The declaration of COVID-19 outbreak by the World Health Organization as a pandemic and declaration of nationwide state of calamity and implementation of community quarantine measures throughout the Philippines starting March 16, 2020 have caused disruptions to businesses and economic activities, and its impact on businesses continues to evolve.

In continuing operations during the pandemic period, the Group implements its Business Continuity Plans to continue to fulfill services much needed during this crisis period. The Group's delivery lead times have been adjusted in line with travel restrictions implemented by government authorities. The Group continuously offers contactless delivery, maintains stringent measures and protocols set by the government including social distancing and regular sanitation of branches, hubs and warehouses, and other facilities, including all cargos, and implements other safety and security measures within operations including vaccination of all employees and regular rapid testing of onsite employees.

In 2021, strong demand of recovery and normalization of operations resulted to increase in revenue as compared to 2020. In 2022 and 2021, the Group also received rent concessions from lessors since the start of pandemic (see Notes 2 and 22). Further, the Group also incurred COVID-19 pandemic related expenses such as medical and sanitation supplies, donation of vaccine, face shields and face masks, vaccinations given to employees and rapid testing costs.

Management is continuously monitoring the financial impact to the Group as the COVID-19 situation progresses and as the Group maintains its commitment to the continuous provision of services to its customers while ensuring the safety and welfare of its employees.
